WE'RE YOUR PARTNER IN QUALITY & STYLE

Ordering from Rolando means you can streamline your corporate uniform needs with our stylish, off-the-shelf, easy-to-brand corporate uniform solutions, allowing you to focus on what truly matters – building your brand. Let us handle the hassle of sourcing the perfect corporate wear, so you can present a polished, professional image effortlessly.

Every fabric is meticulously designed and imported just for you. Our collection features unique products and colors that you won't find anywhere else. We're confident that our range of corporate wear will meet your in- and out-of-office needs, bringing you fashionable garments that you can rely on for longevity and style that helps your brand put its best foot forward.

After all, you've worked so hard on your business, why not create a uniform range that works for your brand as hard as you do!

Dreaming of your own custom designs and colors? We're here to bring your vision to life! With a minimum order of 3000 meters, we will collaborate with you to develop and design fabrics tailored to your exact specifications.

For bespoke garment creations, a 50% deposit is required, along with a minimum production run of just 200 units per style.

Elevate your brand with our unparalleled fabrics and personalized service. Let's work together to make your brand extraordinary!

FAQ'S

FREQUENTLY ASKED QUESTIONS

CAN ROLANDO MANUFACTURE BESPOKE DESIGNS AND COLOURS?

All our fabrics are designed and imported exclusively for our Rolando catalogue. As such, we can only supply the exact styles and colours represented in this catalogue. However, should the quantities meet the minimum fabric requirements required for your own design and colours, we will gladly assist in developing and designing your unique requirements. A minimum fabric order of 3000 meters applies. A 50% deposit would be required for any bespoke garment developments and a minimum production run of 200 units per style would apply.

DOES ROLANDO MAKE ALTERATIONS?

Our garments are manufactured in line with the average specifications of the South African market. Our measurements lean more towards corporate fits, rather than slimmer fashion fits. We do not produce garments to individual measurements and therefore we cannot carry out any alterations. However, in exceptional circumstances, we can alter long sleeve shirts into short sleeve shirts. A surcharge would apply to any such alterations and no returns would be accepted of any garments that have been altered.

WHY DOES IT TAKE EIGHT WEEKS TO DELIVER IF ROLANDO IS OUT OF STOCK?

We raise new production cuts approximately every two weeks. All back orders are then accumulated and added to a minimum production run of 200 units per cut. When a production cut is raised, the order goes into a queue by order date. The average lead time for local orders is eight weeks from the time of loading a production cut. Please note that our import orders can take 12 to 16 weeks. This is dependent on the time of year as well as the factory's capacity at the time.

WHAT IS THE QUICKEST WAY TO FIND OUT HOW MUCH STOCK IS ON HAND?

By visiting our website at www.rolando.co.za you can easily and quickly find out how much stock is on hand.

HOW DO I KNOW WHAT SIZE I AM?

Use our size chart on **PAGE 286** to determine your correct size. It is advisable to get a friend or colleague to assist you in taking your measurements. It is important that you stand upright when taking these measurements.

WHAT IS THE DIFFERENCE BETWEEN REGULAR FIT AND SLIM OR FASHION FIT?

The term 'standard fit' refers to a more relaxed fit, whereas 'fashion fit' refers to a slimmer fit. If you prefer a standard fit, but one of our shirts is only available in a fashion fit, then we would advise you to size up by one size.

I NOTICED THAT REPEAT ORDERS OF THE SAME FABRIC ARE NOT 100% THE SAME, SO THE NEW GARMENTS DO NOT MATCH THE OLD WHEN WORN TOGETHER. WHY IS THAT?

Variations in colour do occur from different dye lots and shipments. These differences are generally within international tolerance levels. We have very high standards when it comes to colour continuity and we utilize the services of an international independent testing laboratory. This laboratory approves the fabric prior to shipment, which helps to ensure colour consistency. Garments will experience a degree of colour change over time. This is due to the use of fabric detergents and fabric softeners in washing, as well as exposure to sunlight. It is therefore impossible for a new garment to match an older garment when worn together.

I HAVE THE SAME STYLE IN DIFFERENT FABRICS BUT THEY DON'T FIT THE SAME?

All our styles have their own unique pattern. This same style pattern is used regardless of the fabric composition. Depending on the composition and handle of the fabric, some styles may feel slightly different.

WHY ARE MY BLACK AND NAVY PANTS FADING?

Dark colours will fade if left out in the sun for an extended period of time, or if your work requires you to spend long periods outside in the sun. When washing, please ensure that the garments are rinsed properly. Hang dark garments inside out and take indoors as soon as dry.

WHY HAS MY JERSEY STRETCHED AFTER WASHING?

When jerseys are wet, lay flat while drying to stop stretching.

WHY DOES THE SAME FABRIC FEEL DIFFERENT IN SOME COLOURS?

There is often a difference in handle between dark and light colours. This is due to different dyes used to dye dark and light colours. Darker colours will usually feel a little coarser than lighter shades.

WHY ARE MY BLOUSES CREASING?

Blouses and shirts made from cotton, or cotton-rich fabric, tend to crease easier than those with a higher polyester content. If you do not want to spend a lot of time ironing, rather choose shirts and blouses made from polyester-rich fabrics, or 100% polyester blouses for ladies. Cotton-rich fabrics are however slightly cooler when worn.

WHY DOES MY GARMENT NOT LOOK EXACTLY LIKE THE PHOTO?

The printed and digital catalogues are for illustrative purposes only. While great care has been taken to get the photography to reflect garment colours as accurately as possible, some subtle variations are expected as a result of the printing process and due to variances in digital screens.

RETURNS POLICY

Should you wish to return or exchange any item, please ensure that the garments are in their original state and packaging. Please also ensure that they have not been worn or altered in any way. Please inspect garments before sending for embroidery or any outwork, as we will not accept returns of garments that have been branded. Any returns and exchanges need to be done within 30 days of purchase. For any returns or exchanges that happen after this 30-day period,

a 10% handling fee will apply. This handling fee would also apply to those returns where garments are not returned in their original packaging. Please ensure the original invoice is included with the return. Please contact our friendly sales coordinators at any of our branches if you have any return queries. We reserve the right to decline a return should it not meet our requirements.

WOMEN MEN

SHIRTS & BLOUSES

LADIES SIZING GUIDELINES

BUST

Wrap a tape measure around your back, across your shoulder blades and under your arms. The tape should be straight and parallel to the floor. It must also wrap around the fullest part of your bust. Do not pull the tape too tightly.

WAIST

Measure the circumference of your waist. Use the tape to circle your waist at your natural waistline, which is located above your belly button and below your rib cage.

HIP

Place the measuring tape across the widest part of your hips/buttocks. Measure all the way around while keeping the tape parallel to the floor.

LADIES TOPS:

MENS SIZING GUIDELINES

COLLAR

Measure around the base of the neck. Put one finger between the tape and your neck if you want some extra room.

CHEST

Measure under the arms around the widest part of your chest, being careful to keep the measuring tape level across your back. Do not pull the tape too tightly.

WAIST

Measure around where you normally wear your pants, keeping the tape measure a bit loose or putting one finger between your body and the tape measure.

GARMENT CARE, COLOUR CONTINUITY, & OUR GUARANTEE

Each of our garments have their own specific wash care instruction, relevant to the composition and construction of each fabric used. These instructions are printed on the sew-in label (usually found on the inside side seam). Additionally, each garment comes with a swing tag that provides general wash care guidelines to ensure longer lasting wear. Therefore, by carefully following the supplied wash care instructions and ensuring that a sufficient quantity of garments is purchased per person wearing them (to avoid excessive wear of any one piece), your Rolando garments should perform well. Doing this will ensure durability, comfort and lasting satisfaction. **We cannot accept responsibility for damage caused by mishandling, or failure to adhere to the garment care instructions provided.**

We are committed to ensuring the continuity of both quality and colour on all of our fabrics. However, variations in colour and texture do occur. This is a result of different dyelots from each shipment of fabric. We carefully follow international industry standards and any variances are always within the international tolerance levels. As much as we try to ensure styles remain consistent for the entire duration of our catalogue, we do reserve the right to withdraw fabrics or styles that are nearing the end of their cycle.

Should there be any factory fault, please return the goods to us within 30 days of receiving them. We will assess the claim and if found to be valid, the item will be repaired or replaced free of charge.
